

The outside story.

Stainless steel wheel liners add a touch of class. Standard and available Ford® and Workhorse™ chassis ranging from 20,500 to 22,000-lb. gross vehicle weight ratings let you tailor your coach to perfectly fit your driving requirements. The 22,000-lb. Workhorse chassis offers 22.5" tires for a more diesel-like look and ride performance.

- a The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.
- b Adventurer floorplans feature a wide-body design—over 96" In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- c Your motor home's load capacity is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- d Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
